

Pete Johnson joined Integrated Global Services in July 2020 as Director of O&G Business Development – APAC. He has been instrumental in incorporating High Velocity Thermal Spray into O&G facilities across Asia Pacific. He has worked within the corrosion industry for 15 years, 10 of which have been in whilst permanently based in Asia.

Prior to joining IGS, Pete spent 9 years working with Belzona Polymerics Ltd., originally in the UK as a Technical Services Engineer. During his spell with Belzona, Pete was promoted multiple times and left having been on the Senior Management Team whilst managing the Engineering and Business Development Departments. He is an AMPP Certified Senior Coating Inspector as well as holding a Bachelor Degree in Engineering.

In his new role with IGS, Pete works closely with his colleagues within the APAC Business Unit to further develop business in the region, with a specific focus on managing Strategic Partnerships with a bias in the O&G industry.
